Our keynote presentation will be given by Leo F. Doherty, MD, FACOG and Lauren M. Nervi, MSN, RN, NP-C, from Reproductive Medicine Associates of New Jersey (RMANJ), a world-renowned leader in the field of infertility. Dr. Doherty is a board certified Reproductive Endocrinologist Infertility specialist and Obstetrician and Gynecologist. He earned his medical degree from the University of Massachusetts Medical School and completed his residency training in Obstetrics and Gynecology at the Yale New Haven Hospital in New Haven, Connecticut. Ms. Nervi has been working in reproductive medicine since 2010. Her compassion combined with her clinical education and experience provides a strong foundation for her holistic approach to the care of patients experiencing the challenge of infertility.

Program Objectives:
✓ Identify the scope of the problem and identify patients who may benefit from fertility preservation
✓ Compare different fertility preservation options and the data to support their use
✓ Describe the process of ovarian stimulation for oocyte and embryo cryopreservation
✓ Discuss how to counsel patients with newly diagnosed cancer about what to expect after referral to a fertility specialist
